PROFESSIONAL SUMMARY

Informatics Engineering student with strong interest in Artificial Intelligence, Machine Learning, and Computer Vision. Experienced in developing intelligent systems using Python, TensorFlow, and deep learning techniques. Skilled in building web applications using Laravel and integrating AI models into practical applications. Completed more than 17 academic and personal projects including CNN image classification, YOLOv8 object detection, and sentiment analysis using Naïve Bayes.

TECHNICAL SKILLS

Programming Languages: Python, PHP, JavaScript

Artificial Intelligence: TensorFlow, CNN, YOLOv8, Computer Vision, Deep Learning, NLP, Naïve Bayes

Web Development: Laravel, PHP Native, Bootstrap, REST API

Mobile Development: Ionic Framework

Database: MySQL, PostgreSQL

Tools: Git, GitHub, Laragon, Composer, Anaconda, Jupyter Notebook

PROJECT EXPERIENCE

Egg Classification Using YOLOv8

Developed a computer vision system to classify real eggs and egg-shaped objects using YOLOv8 deep learning architecture.

Waste Classification Using CNN

Built an image classification model to identify inorganic waste using Convolutional Neural Networks with TensorFlow.

Sentiment Analysis of Electric Bicycle Policy

Developed a sentiment analysis model using the Naïve Bayes algorithm to analyze public opinion on electric bicycle policies.

Mobile E-Commerce Application

Developed a mobile e-commerce application using Ionic Framework with Laravel backend and MySQL database.

Web-Based Pharmacy Management System

Designed and implemented a pharmacy management system for inventory and transaction management using PHP and MySQL.

ORGANIZATIONAL EXPERIENCE

Head of Martial Arts Division – Sports Student Organization, Universitas Buana Perjuangan (2023–2025)
Led martial arts training programs and organized sports competitions.

Staff of Human Resources Division – MAPRO Student Organization (2022–2024)
Managed member data, recruitment processes, and development activities.

EDUCATION

Universitas Buana Perjuangan Karawang
Bachelor of Informatics Engineering
2021 – Present
